Presidential Award for Leadership and Excellence in Environmental Management in Mining

ABOUT THE AWARD

BACKGROUND

When opening Golden Pride Mine-Resolute Tanzania Limited in 1998, Geita Gold Mining Limited in 2000 and Kahama Mining Corporation Limited-Bulyanhulu Gold Mine in 2001, His Excellence President of the United Republic of Tanzania Benjamin William Mkapa ordered to have the Award for Leadership and Excellence in Mining as a way to manage environment.

To implement the order the Vice President's Office in collaboration with the Ministry of Minerals and Energy and Tanzania Chamber of Energy and Minerals established guidance notes for the Award. These guidelines were distributed to the large, medium and small scale mining companies.

President of the United Republic of Tanzania launched an Award for Leadership and Excellence in Environmental Management in Mining since 2002.

The award is obtained in competition basis, judged on the basis of clearly defined criteria by an independent Selection Committee comprised by five members appointed by the President. Selection of members is based on their personal merit and professionalism in mining and environment.

The Award acknowledges the outstanding contribution a recipient has made to integrate environmental quality into mining operations.

PURPOSE AND OBJECTIVE

The purpose and objective of the Award is to recognize excellence in environmental management and to acknowledge outstanding contributions or commitments, which go beyond compliance with regulations. The President of the united Republic of Tanzania presents the award on an annual basis in order to promote and encourage advances in environmental management and rehabilitation in all aspects of the mining industry in Tanzania. The Presidential Environmental Excellence Award acknowledges the outstanding contribution a recipient has made to balance environmental responsibility with the successful development of Tanzanian mineral resources.

Previous Awards went to the following recipients:
